THIS WAS THE SUBJECT OF DR. TORREY'S SERMON AT THE BIG TABERNACLE.

EVANGELIST TRULY A MANLY MAN

The Attendance of Men at the Services Is Something Remarkable—An Outline of the Splendid Sermon Last Night.

NOTE.

Why not send the Democrat-Sentinel to your friends out of the city for this month and have them enjoy the reading of the work of Dr. Torrey and his associates?

SPARKS.

Dr. Torrey was born January 28, 1856, at Hoboken, New Jersey.

The offerings at the tabernacle average less than two cents per person.

Some people pay one dollar to go to the circus and save two cents for God.

Yes, Mr. Young is married. Married ten years. Mr. Young was quite young when he married Mrs. Young.

There were about 77,000 people converted in the Torrey meetings in England.

Mr. Claggett has a patent right on the dish pan in which the offering is taken.

The bad weather of last evening made a slight difference in the congregation that gathered at the tabernacle to hear Dr. Torrey, but one thing which was very noticeable was the large proportion of men. Dr. Torrey is a manly man, and strongly appeals to the heroic in men, hence the large number in attendance.

The sermon was on the subject, "Man's Need of a Refuge." The common notion of evangelism is something which is below the average in mentality and intellectual power, but this is not the type that the churches of this city have invited. Dr. Torrey is a graduate of Yale and a German university, and the sermons are marked by strong logic and argument which cannot be refuted.

Every night the song service seems to improve under the leadership of Mr. Butler. The congregations are learning to sing, and it is great pleasure to listen to them as they sing without the choir. A person who will not sing for Mr. Butler has not got any song in his heart.

Attention was called to the fact that the papers of the city are giving fine notices in their papers, and the people were advised to send a month's subscription to their friends. By doing this you can enlarge the scope of the work, and who knows but that much good may be done in this way.

At the service last evening the audience was favored with a solo from Mr. Young as well as from Prof. Butler. The service tonight will be equally as interesting as last night. Following is an outline of last night's sermon.

Every Man's Need of a Refuge.

A good many years ago, I was traveling on the continent of Europe, visiting some of the art galleries of Germany, and I saw a picture in the new art gallery at Munich that made a very deep impression on my mind. It represented a storm; the thunder clouds were rolling thick and ominous; the trees were bending before the first approach of the oncoming tempest. Horses and cattle were scurrying across the fields in fright, and a little company of men, women and children, with bowed forms, blanched faces, and terror depicted in every look and action, were running before the storm in search of a hiding place. I do not suppose it was the artist's intention, but it has always seemed to me that this picture was an accurate representation of every human life. Every man and woman needs a hiding place. You say a hiding place from what? A hiding place from four things.

A hiding place from an accusing conscience. Every one of us needs

a hiding place from the accusations of our own conscience. Every man and woman here tonight has a conscience and every man and woman here tonight has sinned against their own conscience. There is no torment like the torment of an accusing conscience. But you say, "My conscience does not trouble me." That may be, for it is a well known psychological fact that conscience sometimes sleeps, but conscience never dies. The day is coming when that sleeping conscience of yours will awaken, and woe be to that man or woman whose conscience wakes up, who has no hiding place from his own conscience.

Every one of us needs a hiding place from the power of sin within ourselves. Now every man and woman here tonight who know them-

MRS. YUNKER AT HOME

Entertained Ladies' Auxiliary to B. of L. and E. Last Afternoon.

Mrs. Louis N. Yunker, wife of an M. K. & T. engineer, entertained almost twenty members of the ladies' auxiliary to the Brotherhood of Locomotive Firemen and Engineers at her home, 121 East Sixteenth street, Thursday.

At the noon hour a sumptuous dinner was served, the menu consisting of all that any one could desire, served in a charming manner.

A guessing contest and other amusements furnished entertainment during the afternoon, the affair being concluded at 4 o'clock, after which the guests departed for their homes, voting the entertainment a huge success.

MISS McVEY WAS THERE

Declamatory Contest Held at Warrensburg Last Night.

Miss Lucile McVey returned last night from Warrensburg, where she attended the inter-high school declamatory contest, participated in by scholars of Warrensburg, Holden and Knob Noster.

First honors were won by Miss Corine Crutchfield, of Warrensburg, and Jessie Bell, of Holden; second honors by Miss Mary Coffey, of Knob Noster, and Amos Burks, of Warrensburg; and third honors by Sybil Clifford, of Holden, and Erwin Mormon, of Knob Noster.

GIRL NOW CAN SEE

SLAVED ALL OF HER LIFE FOR AN OPERATION WHICH GIVES SIGHT.

WILL ASSIST YOUNGER BROTHER

Her First Thought Was of the Baby of the Family, Who, Like Herself, Was Also Born Totally Blind.

Ann Arbor, Mich., Nov. 12.—After twenty-three long years of total blindness, during which she struggled against overwhelming odds to save enough money to bring about a miracle that would restore her sight, Miss Lottie Sheldon, of Mount Pleasant, was successfully operated upon at the Homeopathic hospital by Dean Meyers, and, for the first time in her life looked out upon the blue sky and the beauties of nature.

No sooner had her eyes been opened than the girl began to plan to send her baby brother, born blind like herself, to the hospital, that he, too, might gain the precious gift of sight.

The girl was born with congenital cataracts covering her eyes. Surgeons said the operation might be performed, but that success was doubtful.

There was no money for the operation. The family was large and it was all the father could do to get bread to fill the hungry mouths.

When the girl became old enough she began to plan for the time when she would know the features of the father and mother and of the baby brother.

Year after year she scrubbed floors and did the roughest and hardest kind of work. She saved her scanty earnings, till at 23, she had money enough to bring her to the Homeopathic hospital of the University of Michigan and have the operation performed.

A BEEFSTEAK DINNER

Sixteen Guests Enjoyed It at Country Club Last Night.

A novel function, as enjoyable as unique, was given at the Sedalia Country club last night, covers being laid for fourteen guests.

The affair was a "beefsteak" dinner, arranged in honor of the ladies by the gentlemen present.

The principal dish was beefsteak,

with all side dishes, and each guest enjoyed the affair to the fullest.

Following the dining a farce spelling bee was indulged in, and, sad to relate for Harry Hawkins and the other gentlemen, the ladies outclassed their male escorts.

Cards later furnished amusement, followed by social converse, after which all returned home, declaring the affair a decided success.

Those present were: Misses Jennie Morey, Bess Doyle, Ann Skinner, Irene Blair, Florence Floyd and Mrs. Joseph Waddell. Messrs. John Gallagher, H. H. Hawkins, Charles Brown, William Beck, Charles Messerly, D. Thompson, Joseph Waddell and John Antes.

BEHIND THE BARS

ACCOMPLICE OF THE NEGRO LYNCHED AT CAIRO, ILL., LAST MIDNIGHT.

HOW THE BIG MOB WAS THWARTED

Arthur Alexander, Disguised as a Policeman, Was Hidden in a Private House Until Morning, When He Was Jailed.

Cairo, Ill., Nov. 12.—Arthur Alexander, a negro implicated in the assault and murder of Miss Anna Peckham, was safely lodged in jail this morning.

He was hidden in a private house last night, where he was taken, dressed in a policeman's uniform, thus escaping detection by the mob.

The city is quiet today, the mob's fury having abated, and the presence of the militia exercising a calming influence.

Mayor Parsons, in an interview today, expressed regret for the affair, but declared there could have been possibly no other termination.

He declared Cairo had not had an official execution in fifteen years, and injuries in homicide cases had repeatedly failed to convict.

This, he said, caused a feeling among citizens that justice was not being done, and the feeling against crime that so long has been suppressed found vent in last night's double lynching.

He expressed the opinion that Cairo will be law abiding hereafter.

The story of the lynching of William James, the accomplice of Alexander, and also the lynching of a white wife murderer, will be found on page one of the second part of today's Democrat-Sentinel.

UNION MEN IN JAIL

NO FEWER THAN 300 HAVE BEEN TAKEN IN CUSTODY AT SPOKANE, WASH.

THEY IGNORED A CITY ORDINANCE

It Prohibited Street Speaking, but the Industrial Workers of the World Paid No Attention to It.

Spokane, Wash., Nov. 12.—Following nine days of bloodless warfare between the city authorities of Spokane and 1,500 members of the Industrial Workers of the World, who are fighting against the enforcement of an ordinance barring curbstone orators, the federal government is involved in the affair today.

Three hundred union men are in jail, charged with violation of the ordinance, and because of the crowded condition of the city prison, the military authorities at Fort George Wright, where 600 colored soldiers are quartered, have given the city permission to use the army guard house as a place of detention for municipal prisoners.

Nearly 100 members of the Industrial Workers were sent to the guard house, and today the situation is grave.

The union men have conducted a remarkably orderly campaign, and it is admitted that their only strategic error was the inauguration of a "hunger strike," such as was resorted to by the suffragettes in England, among the men imprisoned.

Nearly two hundred of the imprisoned union men have not eaten for several days, but the police do not care whether the prisoners eat, and the public generally regards the "hunger strike" as a foolish move.

PRESENTED WITH PURSE

Rev. Fr. Neiberg Made Presentation Speech Last Night.

Mr. and Mrs. Peter Rast, who celebrated their golden wedding anniversary yesterday, as anticipated in detail in Tuesday's issue of the Democrat-Sentinel, were handsomely remembered with a purse of \$25 at their home last night, when fifty relatives and friends assembled at the Rast home, on Engineer avenue, to commemorate the occasion.

The Rev. Fr. S. Neiberg, pastor of Sacred Heart Catholic church, who was one of the fifty guests, made the

presentation speech in appropriate style, to which the recipients responded nicely.

It was a late hour when the affair was concluded, all concurring in the opinion that the occasion will be long remembered.

Received a Death Message.

Mrs. U. G. Stevens today received a telegram from her brother, George P. B. Jackson, of St. Louis, informing her of the death in the Mound City of his 4-year-old granddaughter, Emily Peckham Dunham, but no particulars were given.

The child was the daughter of Mr. and Mrs. Jackson's oldest daughter, Margaret, who, with her family, resides next door to the Jackson home in St. Louis.

YALE - PRINCETON

TWO OF THE BIG TEAMS TO PULL OFF THE ANNUAL STUNT TOMORROW.

EXPECT 32,000 PERSONS THERE

Possible That President Taft May Be in Attendance—The Sons of Eli Appear to Be Confident of Victory.

New Haven, Conn., Nov. 12.—It is evident that the recent tragedy at West Point will have no effect on the attendance or enthusiasm at the Yale-Princeton game here tomorrow.

With good football weather, it is entirely likely that one of the biggest crowds in New Haven's history will be on hand to root for the Elis and the Tigers. The anticipated attendance is 32,000.

The Yale men preserve an air of supreme confidence, and entertain the theory that the Princeton Tiger will be humbled much more effectively than the Tammany Tiger in the recent election in New York.

An attempt has been made to secure the attendance of President Taft at tomorrow's game. The president is in Connecticut today, attending the inauguration of President Shanks at Wesleyan university.

When the president was at Yale he manifested little interest in football, rowing being at that time the classier sport. His son, Robert, who is now a Yale senior, is not a football fan, and rarely appears at the games as a spectator.

He is more interested in acquiring an education and maintaining a place in Yale society than in sport, and is president in several Yale societies.

THE O. R. C. GAVE A EUCHRE

At the Home of Mrs. Patrick Downs Last Afternoon.

Mrs. Patrick Downs, wife of an M. K. & T. conductor, entertained the members of the ladies' auxiliary to the Order of Railway Conductors at a delightful euchre at her home, 503 East Fifth street, at 3 o'clock Thursday afternoon.

In the distribution of prizes Mrs. W. F. Norton won the first prize, a cut glass napper, while the lone-hand prize, a brass pin cushion, went to Mrs. H. V. Leist. The consolation prize was won by Mrs. D. J. Egan. All returns are not yet in, and at present it is not known what the proceeds from the euchre will be, but it was a success, however, in every particular, fully fifty ladies attending.

TWO MEN ARE WANTED

Chief Boult Gets a Message Asking for Their Arrest.

A telegram addressed to Chief of Police W. H. Boult was received here at 8 o'clock this morning, requesting the police to arrest two men riding on a train to Sedalia, who are wanted by G. O. Purdy, superintendent of police, at East St. Louis, Ill. The telegram did not state the nature of the charge.

According to the description, one of the men is six feet tall, dark complexioned, educated, and weighs probably 160 pounds. He is a neat dresser. The other is five feet and eight inches tall, has light hair and light eyes and is reported to be attired in a dark suit.

The police searched all morning trains, following the receipt of the message, but failed to locate anyone answering either description.

PAPER IS NOT DEAD

THE BOONVILLE GAZETTE WAS PRINTED AS USUAL YESTERDAY AFTERNOON.

MORTGAGEES WILL NOT LET IT DIE

A Peculiar State of Affairs Exists in One of the Offices in the Journalistic Field in the Vine Clad City.

Boonville, Mo., Nov. 12.—Under the caption, "To the Public," the Boonville Gazette last evening printed the following:

"In yesterday's issue Mr. A. M. Clapp announced the suspension of the publication of the Boonville Gazette.

"Mr. Clapp came to Boonville about five months since and purchased of Mr. W. G. Kapp the Boonville Democrat. He stated at the time that he did not expect to make the paper pay the first year, and expected to lose money the first six months.

"He boastfully stated that he had capital to stand whatever loss the paper might sustain, as in the end he felt sure he would make the plant a paying one. Before the expiration of five months, with boyish instability, he abandoned the publication of the paper and left town.

"Mr. Clapp executed chattel mortgages on the plant at the date he purchased it from Mr. Kapp which empowers the mortgagees in case of a sale or disposal or attempt to sell or dispose of said property or unreasonable depreciation in the value thereof to take possession of it and sell the same."

"Mr. Clapp's suspension of the publication of the Gazette was nothing more nor less than an attempt to destroy its value, and in order to protect themselves the mortgagees have taken possession of the paper, and will continue its publication until the same is sold.

"In the meantime the Gazette will be sent regularly to its numerous subscribers. There may be some mistakes on account of the peculiar conduct of Mr. Clapp that the present management cannot well avoid, and if any occur the persons who may be the victims of such mistake are requested to report the same and they will be remedied as far as possible."

DOING A GREAT WORK

Sedalian Hears From the Drummer Evangelist, Mr. Williams.

R. O. Williams, the well known East Sedalia barber, is in receipt of a copy of the San Jose, Cal. Herald, from his old friend, Drummer Evangelist Williams, who several months ago conducted a series of meetings in Sedalia.

Rev. Williams is laboring at San Jose under the auspices of the Epworth M. E. church, South, and, according to the copy of the Herald received by Mr. Williams, has accomplished a great work in the Master's vineyard.

"THE JOLLY JOKERS"

Another Club Was Organized in Sedalia Last Night.

"The Jolly Jokers," an organization of young men formed for social purposes, was organized in Colonial hall Thursday night, with a charter membership of about twenty.

Officers were elected as follows: President—Earl B. Lopp. Vice president—Leon Rowlette. Secretary—Walter A. Wood. Treasurer—Rodney T. Shepard. Sergeant-at-arms—Richard E. Wood. Committee on arrangements—Homer York, Frank W. Quinn, Walter Garrett, Bert Shepard and Ira Bryan. Following the organization of the club the evening was spent in singing, dancing and the like, being concluded at a late hour.

THE WEATHER FORECAST.

WHO IS A REPUBLICAN?
Who is a republican? With Aldrich
reading out of the party all who did
not vote for the latest tariff bill;
with Cannon denouncing with vehe-
mence every member of congress who
refuses to follow his leadership, and
with Taft himself questioning the re-
publicanism of men who differed
with eastern high protection politi-
cians, the question of who is a re-
publican becomes of vital and im-
mediate importance.

But how comes Senator Cummins,
of Iowa, the very man at whom the
poisoned shafts of denunciation have
been aimed, arises to declare that he
will remain a republican and that
his republicanism will stand the test
as well as the brand furnished by
Aldrich, Payne, Cannon et al.

In these days who is a republican,
anyway? That is a difficult question
to answer in these troublous times.
Must every man who admires the po-
sition taken by Albert Beveridge, of
Indiana, or Albert Cummins, of Iowa,
renounce his allegiance to the re-
publican party? If so, Indiana and
Iowa are welcomed into the democ-
ratic column. Does true republicanism
mean obedience to the insolent
and domineering man from Danville?
If it does democracy feels certain of
its future.

Joe Cannon wants to know whether
the small minority who opposed the
legislation of the leaders is the
republican party or the great ma-
jority, which fell abjectly into line
between the bass drum of Payne and
Aldrich?

The last expression of the republic-
an party of this country, the last
formal utterance and the subscribing
to which was the test of real republic-
an faith, was the Chicago platform
of eighteen months ago, which de-
manded "unequivocally a revision of
the tariff," which the candidate in-
terpreted to mean a "substantial re-
vision downward." The president
himself has admitted that the de-
mands of the platform have not been
met.

Now, who is a republican? The

answer to this question will create
some pretty squabbles before the
next congress is elected.

REPUBLICANS WRANGLE.

If the democratic party should
close its mouth on the subject of the
tariff the agitation would be contin-
ued. A system of high protection,
maintained less for public revenue
than for private emolument is so
heavy a burden upon the consumers
and upon the very manufacturers
themselves, that no community will
keep quiet under it.

If the democratic party abjured
the subject the republicans them-
selves would keep it a live political
issue—the republicans together with
the manufacturers who profit by it.

While Senator Aldrich was talking
finance to one audience in Chicago,
Senator Cummins was saying to an-
other audience in the same city:

"There are millions of republicans
who believe that the tariff duties
should not substantially exceed the
difference in the cost of producing
things here and elsewhere, with a
fair profit added. I believe they con-
stitute a large majority of the party,
but if they do not they will in the
near future."

A few days ago the democrats,
with the tariff as their leading is-
sue, and with two tariff reform re-
publicans on their ticket, came very
near carrying the state of Massa-
chusetts.

The carded wool manufacturers,
who were told by Senator Penrose
that if they couldn't get along under
a tariff made by the worsted inter-
ests they had better go into some
other business, are already out with
a pronouncement denouncing sched-
ule K, and declaring that they will
agitate for fair treatment until they
get it.

That this schedule is an inquiry
was admitted by the president in
his speech at Winona, although he
did not use that word; he sufficiently
described the character of the com-
bination which has maintained it
virtually unchanged for more than
forty years.

Every year it is more necessary to
our manufacturers to get wider for-
eign outlets and to get the tariff out
of politics. They can get wider out-
lets only by mutual tariff conces-
sions, and the tariff can be taken out
of politics only by levying duties for
the sole benefit of the government.

DOCTORING EGGS TO ORDER

Proprietors of Cuban Restaurants Are
By No Means Absolutely Devoid
of Guile.

"I have been taking fruit and some
salt fish for my breakfast practically
every morning," said the young man
in the window seat of the restaurant,
sipping his coffee with an air of con-
tent. "It's fine to be in a place where
one can get the sort of breakfast one
wishes, instead of eternal soft boiled
eggs that form the only provender one
may get in the morning. That soft-
boiled egg statement takes in a large
part of the globe, but my grievance
at the moment is against Havana,
where I have been kept for two or
three months. The eggs are not even
what we would call soft-boiled, but are
in Spanish parlance, pasados por
agua, or passed through water, and
are not even heated. In the Cuban
capital I got on to a shrewd trick of
what we would call the Yankee vari-
ety. Many fussy patrons of Cuban
cafes wish to make sure that they get
fresh native eggs, not imported ones
of unknown age. Cuban eggs always
are laid in muddy nests and by the
mud stains they may be recognized.
I noticed that a waiter from one of
the big places in the Prado went into
the side street every morning and
filled a tray with nice fresh Cuban
mud. After placing this out of sight
behind the bar, he carefully arranged
upon it white eggs, presumably fresh
from their coverings of lime. When-
ever a particular customer in this
restaurant made a special demand for
some Cuban eggs he was sure to find
what appeared to be the real article,
judging by the outer appearance of
the shell."

Longevity of Birds.

The Duchess of Bedford, in "Brit-
ish Birds," gives some remarkable
instances of longevity among birds in
her own collection. A Barbary dove
which has been in the duchess's pos-
session for 15 years was left her by an
old woman who also owned it for
15 years and who always said it was
an old bird when it was given to her.
A Chinese goose has been in the pos-
session of the family for 57 years. A
pintail drake which the duchess
bought 20 years ago, when it was an
adult bird, still survives. One bird
was taken from the nest in 1852 and
died in 1900. "It was chained by the
leg to a small hutch," says the
duchess, "and lived 48 years under
these miserable conditions."

Letter to Dr. W. M. Carter, Sedalia, Mo.

Dear Sir: Good yam: How we got
our agent at Delhi, N. Y.
Gladstone & Paine were agents for
us; we musn't tell names.
We wanted 'em. Paine was painting
his big Colonial house. Said it took
10 gallons of white for the trim.

We sent him ten gallons and said:
if you get it all on, no pay; if you
have any left, return it and pay for
the rest. Agreed.

He returned four gallons and took
the agency. Four or five years ago.
He knows now that his old paint was
and is adulterated; that's why it
took ten gallons to equal six of ours.
Go by the name; there is but one
name to go by: Devoe-lead-and-zinc.
Yours truly, F. W. Devoe & Co.
New York and Chicago.

Indian Landmarks in Ohio Woods.

In the vicinity of Defiance, O., can
be found trees that many would think
freaks of nature. Such they are, but
they are created by the hand of man.

According to the stories of some of
the old timers, these trees are much
older than the present generation has
any idea of, and at one time served
as Indian guide posts. It is said that
in the early days, when the Maumee
valley was one vast woods, the In-
dians bent these saplings to indicate
certain paths. The trees, because of
their deformity, grew slowly, and al-
though they are many years old, never
attained the size of their brethren in
the forests. Similar trees exist near
Fort Wayne.

Dangerous.

A Seattle man attended a moving
picture show where a series of pic-
tures showed "San Francisco at Fleet
Time." In the picture he saw his
wife with another man. She had
been supposed to be visiting in Spo-
kane at the time. Suit for divorce fol-
lowed. Besides being always pre-
pared for death, people these days
have to also be prepared for the
snapshot.

Puzzle.

"Two halves of the same thing must
be equal, musn't they?"
"Certainly."
"Then why is it that a woman who
admits half her age always chooses
to admit the first half?"

Many school children suffer from
constipation, which is often the cause

Scales for Dyspeptics.

"When I got my last prescription
made up the druggist showed me a
pair of pocket scales for weighing
food," said the sorrowful complexioned
man. "He said he could tell by the
medicine I was taking that I would
have to be mighty careful about the
quantity of food I ate, and he urged
me to buy the scales so I could be
sure not to overeat. They were the
first scales designed especially for
dyspeptics I had seen. They cost two
dollars. No doubt they could be used
for weighing other things, but that
druggist offered them only to cus-
tomers whose digestion was out of
order. The scales were small enough to
be carried conveniently and they reg-
istered rations light enough to starve
a canary. I did not buy, but the drug-
gist assured me that many persons
who are on a strict diet have provided
themselves with pocket scales on
which they weigh every bite they
eat."

Worst Pest Than Brigands.

On the highways of turbulent Cata-
lonia one might expect that the chief
danger to the traveler would be the
brigand. By no means! The greatest
pests are the small children, who ac-
cost one at every turn. Treated with
the utmost consideration by their
parents—they are never corrected, it
is said, in any circumstances whatso-
ever—they track the foreigner, with
the irritating pertinacity of the mos-
quito. And, like the mosquito, they
seek blood, crying:

"I have neither father nor mother!
Cinco centimos!" And the grubby
hands shoot up into one's face.

The Consoling Volume.

There was a backward student at
Balliol who, for failure to pass an ex-
amination in Greek, was "sent down."
His mother went to see the master,
Dr. Jowett, and explained to him what
an excellent lad her son was. "It is a
hard experience for him, this dis-
grace," said the old lady; "but he will
have the consolation of religion, and
there is always one book to which he
can turn." Jowett eyed her for a mo-
ment and then answered: "Yes, ma-
dam; the Greek grammar. Good-
morning."

Why Mary Recovered.

"John, I don't want you to grieve
too long when I am gone."
"I shall have to look sorry for a
week or two, Mary, just for the looks
of things, but I shall perk up after
that and begin to take notice. Don't
you think Widow Jinx is a fine lookin'
little woman?"—Houston Post.

When a cold becomes settled in the
system, it will take several days'
treatment to cure it, and the best
remedy to use is Chamberlain's
Cough Remedy. It will cure quicker
than any other, and also leaves the
system in a natural and healthy con-
dition. Sold by all dealers.

The Duty of Rest and Play.
Rest is just as much a necessity of
life as work is. In the face of the
popular theory which supposes that
work in itself is respectable unless it
is proved to be wrong and that rest
in itself is suspicious—that it must
prove itself to be right; in the face of
this popular theory, which is the the-
ory of the spelling books, of careless
talk and untrained consciences, I
must remind you that Work and
Rest have each its own place, and
that neither must step beyond that
place. In its right place and propor-
tion Rest is as dignified, as creditable,
as Work is.—Edward Everett Hale,
1857.

His Little Deal.

"Ha, ha!" exclaimed the boarder.
"You actually bought a gold brick?"
"Yes," answered the farmer, as he
took the specimen tenderly and laid
it on the mantelshelf. "All the city
folks that came here expected to see
one. It seemed like they wouldn't be-
lieve I was a regular farmer unless I
could show a gold brick. So when I
went to town and this was offered me
I give the fellow \$99 in confederate
money and a Canada quarter, which is
cheaper than I could have made one
myself."

Ants in Battle.

The pugacity of ants leads them to
amuse themselves during long in-
tervals of peace by sham battles.
They rise upon their back feet,
wrestle, seize each other by the jaws
or legs, mount on each other's backs,
roll over and over and engage in
other antics. Neighboring commu-
nities of ants are prone to engage in
wars which continue through weeks
and months, and usually end with the
annihilation of the weaker community.

METHOD OF INDUCING SLEEP

Self-Suggestion Plays a Great Part—Worry is the Main Thing to Be Avoided.

The next point to bear in mind is that self-suggestion plays a great part in the production of sleep, writes Dr. S. McComb in Harper's Bazar. Ordinarily we do not sleep by accident or haphazard. We resolve to sleep. We go through a variety of actions all suggestive of a change from our normal waking condition. We undress, we place ourselves in a comfortable position, we close our eyes. We believe and expect that we are going to sleep, and the result is sleep. One of the great preventatives of sleep is the fear of not sleeping. Once this

fear is broken down, we sleep. The insomnia worries about his insomnia, and this very worry deepens the mischief. Hence the sufferer should suggest to himself again and again: "If I sleep, well; if I don't sleep I will at least gain rest by keeping my mind calm and my body relaxed." In a word, our chances of getting sleep increase if we assume the external physical attitude which corresponds to sleep, if we relax every muscle and let it stay relaxed, if we breathe lightly and regularly, if we call up the imaginations of a sleeping person, and talk and think sleep to ourselves, repeating silently and in a quiet dreamy fashion such a formula as this: "There is no reason why I should not sleep. My mind is at peace. Sleep is coming. I am getting sleepy. I am about to sleep. I am asleep."

EASY TO DETECT BAD MONEY

Hold Bill Up to the Light and Examine the Silk Threads in the Paper.

Despite the utmost vigilance of our efficient secret service men, the making counterfeit money in this country has not been wholly suppressed. Spurious coins and paper tokens occasionally get into circulation and some of these are so well done as almost to defy detection by experts.

Among the latest samples of the counterfeiters' art is a \$10 bill, one of the cleverest imitations on record. A specimen of this issue was received and paid out by several banks, being regarded by all who handled it as genuine. In time it reached the sub-treasury at New York and there its spuriousness at once became known.

On first inspection the bill appears to be a real product of the treasury department, but when held up to the light the little particles of silk, which in a genuine bill are curved and twisted in the paper, are seen to be straight and hard. A magnifying glass shows some very slight discrepancies between the face of the bill and that of a genuine one.

Subtreasury officials state that the bogus note was engraved by a master in the art who may once have been employed in the bureau of engraving at Washington. Every person who receives a \$10 bill, says Leslie's Weekly, should apply to it at least the simple test above given of holding it up to the light and noting the condition of the silk threads.

RAISED \$75,000.00

IN TEN DAYS FOR YOUNG MEN'S CHRISTIAN ASSOCIATION BUILDING.

HANNIBAL BUSINESS MEN'S CLUB

There Were 2746 Contributors to the Fund—Active Work Will Be Commenced on the Structure Early Next Spring.

Special to the Democrat-Sentinel.

Hannibal, Mo., Nov. 12.—The citizens of Hannibal have just closed a campaign to raise a fund of \$75,000 for a Y. M. C. A. building. The campaign was remarkably successful, resulting in raising a fund of \$76,160.75 in ten days. The work of raising the fund was organized by the Commercial club. One hundred picked men were divided into ten committees of ten each and great rivalry was engendered between the different committees.

The fund raised is perhaps the largest amount ever raised for a Y. M. C. A. building in a city of 20,000 inhabitants, which was made possible in Hannibal by the hearty co-operation of the business men through the Commercial club. It has been the policy of the club to foster anything that tends to the betterment of the city, whether it was a Y. M. C. A., a college, a park or a factory.

There were 2,746 contributors to the Y. M. C. A. fund, including over eight hundred employees of factories, three breweries, a large number of saloon keepers and wholesale liquor dealers were liberal contributors and several saloon men were active workers on the committees. Active work on the building will not begin until early spring.

WANTS THE WHOLE WORLD TO KNOW

GOOD REPORTS ARE COMING IN FROM EVERY DIRECTION.

Many people of Sedalia and vicinity are greatly interested in the new remedy, Root Juice, that is now being demonstrated in Wilcox's drug store. It is certainly a great medicine if one can judge by the reports that are coming from every direction. A number of local people are claiming that the first dose of the juice made them feel better. During the past few months the remedy has made scores of remarkable cures in many sections of the state and created considerable excitement. Numerous testimonials similar to the following are being received almost daily: "I write this for publication with the hope that it will influence those who suffer as I did to try the great medicine that cured me. The wonderful Root Juice medicine has done so much good for me that I feel it my duty to publish it to the world. I spent a life of misery for years, but thanks to Root Juice, I am now free from every ache and pain. I, like many others, was very skeptical when the papers first told of the many hundreds of cures the remedy was making. When the scientist was invited to come here I thought he would be unable to prove all that was claimed for the medicine. However, I was soon convinced, as it did wonders for several of my neighbors. At the time I felt that every organ of my body was nearly worn out. My liver was torpid, my kidneys were weak and my stomach was in a horrible condition; at times it felt like it had rocks in it, a great deal of gas formed and I bloated fearfully. I had dizzy, weak spells frequently and was badly constipated. My appetite was very poor and even in hot weather my hands and feet were often cold. I was using some kind of medicine most of the time without much benefit, but after using Root Juice a few days I began to improve. I have used hardly six bottles, but am feeling better than I have for twenty years and firmly believe that I am permanently cured."—O. H. Cummings, R. R. No. 4, Lafayette, Ind. The people at Wilcox's drug store are very pleasant in giving information in relation to the remedy. It is sold for \$1 a bottle or three bottles for \$2.50.

The old, old story, told times without number, and repeated over and over again for the last 36 years, but it is always a welcome story to those in search of health. There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by all dealers.

CACTUS PATCH IN MICHIGAN

Plant Is Supposed to Have Been Brought North by Indians.

Located in the northern portion of Blue Lake township, in Michigan, covering an area of several acres and preventing to a great extent the successful farming of the land in that vicinity, is an immense patch of cactus of the prickly pear variety. Naturally growing only in the warmer portions of America, the spread of the big patch in the extreme northern part of Muskegon county has been the cause of no little comment, and the stories of its origin are numerous.

Nearly half a century ago C. F. Wheeler, connected with the agricultural department at that time, in going over Muskegon county happened upon this strange cactus patch. He pronounced the plant a native of Arizona and was able to explain its presence in Michigan only on the theory that some Indian tribe, either migrating here willingly or driven northward rather than become enslaved to some more powerful tribe, had brought the plant.

Legends of how the cactus was brought to this country are still told by the residents of Blue Lake, who have heard from time immemorial the stories of its origin from the lips of aged Indians, who 50 years ago were numerous in the county. The Indians used to say that the cactus was brought from Arizona here by the band of Zuni Indians, who, conquered by another of the minor tribes, were forced to accept exile or slavery.

The date of this coming to Michigan was placed by these Indians as about the year 1400 from estimates made in the stories told them by their forefathers, and to prove their statements that the cactus was the best of food they would burn off the barbs and make various native dishes of them. In spite of the climate here the cactus seems to flourish in the dry regions of Blue Lake and in the last few years have been extending the area which they cover.

"REFUGE NEEDED"

(Continued from Page 1.)

selves at all well know that there are powers of evil resident within themselves which are more than they can master in their own strength. We need a hiding place from the power of sin within.

Every one of us here needs a hiding place from the power of the devil. There are a great many people who are too wise to believe in a personal devil. I believe in the existence of a personal devil. I will tell you why. First, because the Old Book says so, and I have found that the man who banks on the Book always comes out ahead in the long run. But friends, there is another reason why I believe in a personal devil, and that is because of the teaching of my own experience and common sense. We see everywhere in this magnificent universe the footprints of the Creator. But, alas! we see everywhere in human society the footprints of the enemy. We need a hiding place from the subtlety, the cunning, the power, of the devil.

In the fourth place, we need a hiding place from the wrath to come. There are a great many people who do not believe in the wrath to come. I do. Why? Because again the Old Book says so. Another reason why I believe in the wrath to come is because my common sense says so. Of course, there is a judgment day and you and I need a hiding place from it, every one of us, for every one of us has sinned and come short of the glory of God.

Is there a hiding place? I close with my text instead of beginning with it, Is. 32: 2, "And a man shall be as an hiding place from the wind and a covert from the tempest; as rivers of water in a dry place; as the shadow of a great rock in a weary land." Who is that man? There is just one man that is a hiding place—the God-man, Jesus Christ. He is a hiding place from conscience. Is there a man or a woman here tonight haunted with the memory of the past? Christ is a hiding place and there is peace tonight for you in Him.

Christ is a hiding place from sin within. Christ is a hiding place from the power of sin. There is no more speculation about the religion of Jesus Christ. It is a present-day demonstrable reality. It is not merely that Christ saved people nineteen hundred years ago; he is saving men today.

Once more, Christ is a hiding place from the wrath to come. I cannot prove that from experience, for it lies in the future; but I can prove it by an argument that is unanswerable. That argument is this: the Christ that has power to save men from the power of sin now certainly has power to save them from the consequences of sin hereafter. Is not that a good argument? Let me add, that any religion that is not saving you from the power of sin today will not save you from the consequences of sin in eternity. If you have that kind of faith in Jesus Christ, which after all is not faith, which is not saving you now, you have that kind of faith in Jesus Christ that won't save you from the penalty of sin hereafter.

Jesus Christ is a refuge, a hiding place from conscience and its accusations, from the power of sin within, from the power of Satan, from the wrath to come, from all that man needs a hiding place from. Who will come to this hiding place tonight?

"Babes in Toyland."

It seems like a very broad assertion to say that the production of "Babes in Toyland" at Wood's opera house Thursday evening, November 18, will be the finest ever seen here, but Manager Wood says that such will be the fact. Sixty-foot baggage cars are required to transport the scenery, properties, wardrobe, etc. There are nine scenes in the two acts and twenty stage hands will be required to handle them properly. In regard to the electrical effects, results have

been reached by the Metropolitan Stage Lighting company that are not only beautiful, but marvelous. The company numbers seventy people. "Babes in Toyland" is a wonderful production and caters to adults as well as children, and coming as it does with a record of the entire season in New York, should be greeted by an immense audience.

BISHOP'S REQUEST

THE RT. REV. JOHN J. HOGAN
HAS ASKED FOR COADJUTOR
AT KANSAS CITY.

BISHOP LILLIS MAY BE NAMED

The Aged Prelate, Bishop Hogan, for Forty-One Years Has Held a Bishopric—Lillis a Native of the Diocese.

Kansas City, Mo., Nov. 12.—According to today's Journal, Bishop John J. Hogan, for forty-one years a bishop of the Roman Catholic church, and now in charge of the see of Kansas City, has applied to Rome for a coadjutor.

It is probable that Thomas F. Lillis, now bishop of Leavenworth, will be named as coadjutor. This would give Kansas City something rare in Roman Catholic annals, a native-born bishop. Bishop Lillis was born in Lexington, Mo., which is in the Kansas City diocese.

The application of Bishop Hogan for a coadjutor is due to his advanced age. It was made last September. Rome usually is slow in its moves and it may be a month before the appointment of a coadjutor will be made. If Bishop Lillis is transferred to the Kansas City diocese, it will leave a vacancy in the Leavenworth see.

According to Catholic rule in such matters, after an application is made by a bishop for a coadjutor, the irremovable rectors, as parish priests are styled, meet and select three names. One is classed as worthy, another more worthy, and the third most worthy, the latter classification implying the first choice of the priests. The bishop may also submit a name, though the choice of the priests, owing to the democratic rule of the church, is considered the strongest.

Bishop Hogan is 80 years old. He was born in Bruff, County Limerick, Ireland, May 10, 1829. He emigrated to America when 19 years old and made his home in St. Louis. He was ordained a priest in 1848 and since his ordination has passed his life in Missouri. The Kansas City diocese is practically the western half of Missouri.

Archbishop Glennon, when a bishop, was coadjutor to Bishop Hogan. After Bishop Glennon was made an archbishop, Bishop Hogan again took up the duties of his office. Almost all of the parish work, however, has been done by Bishop Lillis, who also assumed many of the duties of Bishop Hogan's office.

Bishop Hogan was consecrated a bishop in 1868. He was placed in charge of the diocese of St. Joseph. In 1880 he was transferred to the Kansas City diocese.

Bishop Hogan was a missionary priest when consecrated bishop. In all the great territory over which he had spiritual charge there were not more than 3,000 persons. More than that number of persons belong to the Cathedral congregation.

In recent years he has appeared but seldom in public, except at masses at the Cathedral, his appearance at Convention hall at the lecture of Archbishop Glennon last night being unusual. His personal appearance is striking. His close-trimmed hair is more white than gray and his eyebrows of the same hue contrast markedly with sparkling black eyes.

Bishop Lillis is 47 years old. His father, James Lillis, was a widely known contractor of this city. Bishop Lillis attended district schools in Lafayette county. His parents removed to Kansas City when he was 17 years old. He attended St. Benedict's college at Atchison, Kas., and afterward studied at St. Francis seminary, Milwaukee. He was ordained a priest by Bishop Hogan twenty-four years ago.

His first charge was as assistant priest in Shackleford, Mo. Two years later he was transferred to Independence. In 1887 he was made assistant priest at St. Patrick's. When Father Dunn died he was placed in charge of the parish. He was named as bishop of the diocese of Leavenworth September 17, 1904. He was consecrated December 27, 1904.

HADLEY VICTIM OF STING

Eye Swollen Following Attack of Insect on Hunt Trip.

Jefferson City, Mo., Nov. 12.—Governor Hadley is nursing a swollen eye as a result of a short hunting trip in the suburbs of the city. An insect of some kind on the eyelid and it has since caused him no little pain and annoyance.

Last afternoon he did not come to his office at all, but was not feeling too badly to talk politics with Senator Warner at the mansion.

The governor does not anticipate any serious result from his injury.

ASTONISHING RESULTS

Follow Each New Discovery of Science.

The great strides that medical science has made in the last few years is due to the germ theory. When the germ of a disease has been discovered, the doctors have not been slow in finding a drug to kill it. In a few years, it will be rare to find a bald-headed man or woman. The falling out of hair is due to a dandruff germ, and now it has been discovered how to kill this germ. The remedy used is called Newbro's Herpicide. Its success has been marvelous. Not a failure has been so far reported. It is also a delightful hair dressing free from oil or sticky substances. Try it and be convinced of its actual merit. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

WOMAN SMOKER LIVED LONG

Mary Frith, Highway Robber, the First of Her Sex to Use Tobacco in England.

Mary Frith, better known as Moll Cutpurse, was a notable figure in old time London life. She had the reputation of being the first woman to smoke tobacco in England.

The length of her days is a disputed point, but it seems certain that she attained the age of over threescore years and ten. It is asserted that constant smoking prolonged her life. A portrait representing her in the act of smoking forms the frontispiece of Middleton's comedy of the "Roaring Girl." She also figures in other plays of the period.

Mary was the daughter of a shoemaker living in the Barbican, and Malone gives 1584 as the date of her birth. She early took to wicked ways and became a noted "highwayman." Among her familiar friends were the notorious Capt. Hind and Richard Hannam. She was an expert swords-woman. Single-handed she robbed on Hounslow Heath. Gen. Fairfax of 200 gold Jacobuses, shooting him through the arm and killing two of his horses on which his servants were riding. For the offense she was committed to Newgate, but on paying the general £2,000 she obtained her liberty.

At one time Mary had £3,000 of her own, but by giving money to distressed cavaliers she died comparatively poor. Her death took place in July, 1659, and she was laid to rest in St. Bridget's.

ARE USED TO BEING CROWDED

Passengers on New York Street Car Sit Close Even When It Is Not Necessary.

The woman with a sense of humor smiled. "It is funny," said she, "how content some people are to sit jammed together in the cars."

"But they can't help themselves," protested her companion.
"I know, but I refer to the times when they are not obliged to occupy the same six inches with their next neighbors. When a crowded car begins to thin out, most people expand, but some forget to. I have seen the women who has been shopping

squeeze into a seat beside a laborer at the rush hour, and, just as often as not, she continues to tickle his nose with her plumes clear up to Harlem, after the car is half empty, and to rest her bundles on his lime-coated overalls.

"One night, quite late, away up-town on a Broadway car, a young man and young woman sat propped together midway of a long, empty seat. There was not another passenger left in that side of the car. They paid no attention to each other, and I supposed that they were too tired to talk. It was quite a shock to my calculations when the young man got off and left the girl sitting apathetically in the empty seat. I had estimated them as first cousins at the furthest."—New York Press.

MISS BERTHA SPELL'S HEALTH

Was Greatly Improved—After Fever Had Run Her Down—By Cardui, the Woman's Tonic.

Rosedale, Tex.—Miss Bertha Spell, of this city, contributes an interesting letter on her experience with that famous woman's tonic, Cardui.

She writes: "I had fever for forty-eight days and when I got up my feet were swollen and I had some womanly troubles.

"I had read so many testimonials about Cardui, that I decided to try it, so I used six bottles and it straightened me up."

Not only when you are seriously sick, and suffering agonies from female complaint, as some women do, is it the time to take Cardui, but also when your sickness has gone and you need something to "straighten you up."

This is the time to take a tonic and for a woman what better tonic could there be than Cardui, the woman's tonic?

Thousands write, as Miss Spell did, to tell how Cardui helped them.

Try it for your troubles.

NOTE—The Cardui Home Treatment for Women, consists of Cardui (\$1), Theford's Black-Draught (25c), or Velvo (50c), for the liver, and Cardui Antiseptic (50c). These remedies may be taken singly, by themselves, if desired, or three together, as a complete treatment for women's ills. Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper on request.

\$50 IN GOLD GIVEN AWAY!

To the first adult person bringing us a piano prospect (the prospect becoming a purchaser ON OR BEFORE NOV. 30), we will give \$15.00 in gold. To the next, \$12.50 in gold; to the next, a \$10 gold piece; to the next, \$7.50 in gold, and next, a \$5 gold piece. The names of prospects must be handed in (not sent in) on SATURDAY, NOV. 13, 1909, between 9 O'CLOCK A. M. AND 9 P. M. The party handing in prospect may be considered a prospect if they so desire, and if they buy a piano within the time limit they will be entitled to one of the gold pieces, according to their number, as they buy. When a sale is made to any of the prospects, the gold pieces will be given as per agreement. If you are a prospective buyer yourself, come in as early Saturday morning as you can, and your chances for a larger coin will be greater. If you don't need a piano, hand us the name of some one who you think will buy a piano soon. This will cost you nothing. Give us the name. We will do the rest. Our pianos are high-grade; best selection in the city. Our prices are low, our terms reasonable. This is a bona-fide offer. We do as we advertise! One price to all. Cash or time.

FOUGHT DUEL FOR A GIRL

But Seconds Had Loaded the Revolvers With Blank Cartridges.

Decatur, Ill., Nov. 12.—Rivalry for the hand of Miss Beatrice McConnell, a young society woman of this city, led to a duel between Edgar Stevens, of Alton, and William DeForrest Fairbanks, nephew of the ex-vice president, yesterday.

Each paced twenty steps, then turned and fired all chambers of a revolver toward the other. By a pre-arranged understanding between the principals both guns were loaded with blank cartridges.

A week ago the young men planned to fight with fists, but not satisfied with this, they agreed to settle the matter with revolvers.

The pair and their seconds, with a dozen other friends, gathered last afternoon near Fairview park, in the fashionable section of the city, and there carried out their plans—almost. Miss McConnell refused to talk other than to say that she liked them both.

ARE ALREADY LYNCHED

Grand Jury Finds That Three Mob Victims Were Innocent.

Clarksville, Miss., Nov. 12.—The grand jury of this county reported yesterday that, after examining numerous witnesses, it had acquitted Nathan McDonald, a negro, charged with the murder of Deputy Sheriff Walter Marshall, and that the officer came to his death at the hands of Marshal Shannon, who was drunk the night of the killing.

The lynching of Porter McDonald, a negro, which grew out of the killing, was investigated, and though several hundred persons saw the lynching, the jury could find no evidence on which to indict.

Marshall was killed while raiding a negro crap game with Shannon and three negroes were lynched the Sunday following that killing.

Falcon in London Streets.

The escape of a pet eagle which has just provided residents in the neighborhood of Hoxton with a sensation in the form of a hunt across the rooftops, is a reminder (writes a correspondent) that for many years the spire of the adjoining church at Shoreditch, popularly known as the actors' church, was the home of a falcon which took up its abode there at all times and in all weathers.

The appearance of a falcon in the crowded streets of London is a rare spectacle—as rare almost as the snipe which some time ago were seen careering over the Marylebone road by an observant naturalist, or the swan which was gracefully preening its feathers on the roof of a train standing in Luton station. Several years ago a buzzard visited the metropolis and greatly astonished some workmen who were engaged upon the roof of one of the buildings of the house of commons.—London Daily News.

Naval Torpedo Made Effective.

The day has gone by when the torpedo can be regarded as an unreliable instrument of war of strictly limited use. To-day the British navy is about to be equipped with a torpedo which will carry a destructive charge of upward of 200 pounds, and will possess an effective range of over 7,000 yards, which it will be able to cover at an average speed of 31 knots. Such a weapon is bound to influence battle tactics, owing to its range and the accuracy with which it runs. The new torpedo, in association with improved gunnery methods, has already banished the familiar six-inch gun from the newer battleships and battle-ship cruisers.—Cassier's Magazine.

THREW WIFE INTO RIVER

An Indiana Man Confesses That He Is Guilty of Murder.

Indianapolis, Ind., Nov. 12.—Edward Hoff, a farmer, last night confessed to the police that the body of the woman found in the river near here Monday was that of his wife and confessed that he had caused her death by throwing her from the bridge of the Indiana Union Traction Co., which crosses the river at Broad Ripple just north of here.

Hoff, according to his confession, became angered because his wife insisted upon taking morphine. They had been in Indianapolis the afternoon of Friday, Oct. 22. They were returning to their home in the evening and were crossing the bridge when Hoff says his wife started to take morphine.

"You might as well be dead as to take that stuff," said Hoff, and, angered, he says he pushed her off the bridge.

Mrs. Hoff was 35 years old and was married to Hoff five years ago.

BREAKING THE SABBATH

Was the Charge Upon Which the Jury Failed to Agree.

Montgomery, Mo., Nov. 12.—The jury in the case of Mr. and Mrs. Benton Walton, charged with deserting the Sabbath by unnecessary work, failed to agree, and was dismissed by Judge Barnett, of the circuit court yesterday. Four were for acquittal and eight for conviction.

The defendants are from Greenfield, Ind., and were arrested at Marshall, Mo., and brought here to answer the charge of delivering catalpa trees on the Sabbath. They claimed their stock was perishable and that the prosecuting witness had them arrested because they made him pay for \$60 worth of trees which he had ordered.

They alleged that the prosecuting witness, who was Joseph Brown, of near Bellflower, Mo., was washing his buggy on the Sabbath when they delivered the trees, and that he was also guilty of breaking the Sabbath law, if it had been broken at all.

Something for Nothing Pretty Nearly

The Democrat-Sentinel wants more subscribers. It's got a good many now—more, by far, than any other paper ever published in Sedalia or Central Missouri—but it's not satisfied yet. The high mark set is 5000 by the first of October, and to get them it is prepared to make a more than usual liberal offer.

Here Is the Offer You Must Admit it Is a Good One

The Daily and Sunday Democrat-Sentinel for one year with the Cooker.....\$8.00

The Weekly Democrat-Sentinel one year with Cooker.....\$4.00

The Sunday Democrat-Sentinel one year with Cooker.....\$4.00

The regular price of the Daily Democrat-Sentinel is \$5.40. The retail price of the Fireless Cooker is \$10.00. We offer both for only \$8.00—a saving of \$7.40.

Can you find a better proposition than this?

We will do even more. You can pay \$4.00 and take the Cooker, paying the balance in three or six months, as suits your convenience.

Advantages of the Fireless Cooker Over the Usual Method

Retain all the natural juices of meats, vegetables, etc.
Renders food more nutritious and palatable.
Requires only about one-fifth the time.
Prevents scorching, drying up or burning.
Never overcooks or spoils the food.
Renders all food much more digestible.
Promotes good health and good temper.
Prevents the commingling of flavors.
Cooks cabbage, onions, etc., entirely without odor.
Gives you leisure for calling, shopping, taking a nap, etc.
Turns Sunday dinners from drudgery to delight.
Prevents worry if husband or guests are late.
Does away with kitchen heat.
Cooks for breakfast over night.
Physicians say "the dyspeptic's best friend."
Fireless Cookers and the art of fireless cooking are old, having been used in Norway and the old world ages ago—the only difference is that our Cooker is built scientifically for all practical purposes.
In operation this wonderful invention is simplicity itself. You simply prepare the food to be cooked in the regular way—place it on the stove and bring it to boil—then immediately transfer to the Cooker, cover tightly, add the insulated pillow covering—drop the lid and let the Cooker do the rest. In a few hours remove the cover and serve the boiling hot—perfectly cooked and with a taste that will prove delightfully surprising.

THE COOKER

Is 24 inches long, 12 inches wide by 12 inches deep, made of kiln dried, specially prepared wood, dovetailed on all corners.

The cabinet is packed with chemically treated mineral wood which retains heat at the highest temperature.

The Cover is pressed steel, perfectly sanitary, and indestructible; it cannot wear out. The lining and Kettle Container is made of heavy seamless enameled tin, airtight and waterproof. Intense cold has absolutely no effect whatever on the contents of the Cooker. A dinner can be put in the Cooker and taken in the open air, on the back porch for example, even if the temperature is 20 degrees below zero, the cooking process will continue just as perfectly and scientifically as if Cooker was in the house.

The Cooker contains a six-quart and also a four-quart enameled pressed steel cooking kettle with special airtight covers.

CAUGHT FOUR CHINESE

Found Half-Famished in a Box Car in St. Louis.

St. Louis, Mo., Nov. 12.—The picture of a beautiful girl of refined appearance, who, he said, was his Sunday school teacher, and that of a burlesque actress in tights, was found in the breast pocket of the coat worn by Wong Wing, the leader of four half-starved Chinese, who were discovered hiding in a freight car in the Wabash railroad yards at Third and Wash streets by employees of the railroad company and the police yesterday afternoon. The quartette entered the car at Chatham, Ontario, Canada, Tuesday and were smuggled across the line.

A Catholic baptismal certificate was in the same pocket. Holding the two pictures in his hand, United States Immigration Inspector Dunn, who examined the Chinese, remarked: "A sample of the usual Chinese conversion."

DIXEY SUES SAVAGE

He Was Accused of Being a Poor Actor, the Player Says.

Minneapolis, Minn., Nov. 12.—Henry E. Dixey, leading man in "Mary Jane's Pa," has filed two suits in the Hennepin county district court, totaling \$61,500 against Henry W. Savage, producer of the play.

Dixey filed complaints in one action for \$50,000, charging that Savage and Claxton Wilstach, business manager of the company, circulated false reports to the effect that the failure of the company in Minnesota was due to Dixey's poor acting.

This, Dixey says, is slanderous and implies that he is not a successful actor.

The other suit for \$11,500 is for a percentage of receipts Dixey says are due him. Dixey also asks a writ of attachment for the scenery of the play and also for the manuscript and copyright.

GENEROUS OFFER

W. E. Bard Drug Co. Guarantees Parisian Sage to Cure Dandruff, Stop Falling Hair or Itching Scalp or Money Back.

But Parisian Sage is more than a cure for dandruff—it will make hair grow on any head where the hair bulb is not altogether dead.

And we want every reader of the Democrat-Sentinel to know that Parisian Sage is the most delightful hair dressing in the world. It is so pleasant to use, and its effect is so invigorating and refreshing, that it pleases everybody.

The women of Paris are, as a rule, beautiful and keep beautiful, and a careful American observer who has traveled much claims that their beauty is due to their knowledge of how to keep their hair luxuriant, which they do by using a superior hair tonic.

Many American women are as wise as their French sisters, and that is why Parisian Sage, the quick acting and greatest of all hair restorers and tonics, is now having such a tremendous sale in America.

Parisian Sage is sold by leading druggists everywhere and in Sedalia by W. E. Bard Drug Co. at 50 cents a large bottle. Mail orders filled; all charges prepaid by the American makers, Giroux Mfg. Co., Buffalo, N. Y.

Girl with the Auburn hair is on every package.

Increasing the Voltage.

While 60,000 volts was considered a minimum tension for transmission lines a few years ago they are now using 72,000. An 80,000-volt line 13 1/2 miles long is now building, and a line has been built designed for 100,000 volts.

Did Ida Throw Rocks?

Ida Hamilton, alias Ida Bell, a negro, was arrested by a member of the constabulary last night, charged with throwing rocks at Anna Scott, another negro. The defendant appeared before Justice R. G. Leaming today and entered a plea of not guilty. She asked for a hearing tomorrow, which was granted. She was released on bail.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

NEWS OF THE RAIL

BIGGEST RAILWAY COMBINATION IN WHOLE WORLD NOW AT HAND.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

The seemingly assured election of President Charles S. Mellen, of the New York, New Haven and Hartford railroad, as president of the Boston and Maine railroad, marks what is probably the commencement of the biggest railway combination ever known and which, when thoroughly effected, will link five of the ports on the Atlantic coast to San Francisco, the chief port on the Pacific.

The mileage of the combined system will be in excess of 30,000 miles, or more than one-eighth of the total mileage of the country.

Rumors are prevalent in the railroad world that a combination between the Pennsylvania system, which has a trackage of 11,262 miles, and the Santa Fe railroad, operating 9,430 miles, is to join the New Haven in forming this giant transcontinental system of 30,052 miles of railroad, which also includes the Boston and Maine and the New York, Ontario and Western.

Nearly 10,000 miles of railroad are involved in the present merger of the Maine and New Haven roads, which, though still bearing separate names, are to be administered in effect as one company under the management of the same man, Charles S. Mellen.

Spend \$1,000,000 for Betterments. According to its annual report filed with the Kansas railroad board yesterday at Topeka the Missouri Pacific received \$10,025,687 for hauling freight and passengers in Kansas last year, and spent \$7,897,233 for operating expenses.

The operating expenses alone took 78 per cent of the revenue. This left only 22 per cent to pay all fixed charges, which dispels the story that the Missouri Pacific spent its Kansas income in building its new road on the Pacific coast. The company has set aside \$1,000,000 for betterments in Kansas, and the money to come for the improvement of its lines must be borrowed.

The profits from its freight and passenger business cannot pay the contemplated improvements.

The company paid out in wages alone \$5,028,419 in Kansas for the year. Engineers receive an average of \$5.16 a day; conductors, \$4.35 and machinists \$3.81.

Eight Miles of New Track. Eight miles of additional track will be the result of the enlargement of the Missouri Pacific yards at Jefferson City, says the Democrat of that city.

The bend will be taken out of the Missouri river at this place, and the big bluff below the Belch place will be chopped off and thrown into the river.

The whole of the big river bend from the bridge to the penitentiary will be filled in, and five new lines of track will be placed on the additional ground thus created.

It is estimated that when the work is completed about eight miles of new track will have been added to the Missouri Pacific yard at this place.

Still at the Hospital. William Lewis, a Missouri Pacific brakeman, who several weeks ago was seriously injured by being struck by an overhead bridge near Higginsville, Mo., is still a patient at the M. K. & T. railway hospital and is reported to be improving slightly each day.

However, in spite of this fact, his recovery is not yet assured, and it will be months before he will be able to resume work, if ever.

New Trains Goes on Sunday. A bulletin was posted at Kansas City yesterday, stating that effective next Sunday the Missouri Pacific will operate a fast mail train between St. Louis and Kansas City, to be known as trains Nos. 5 and 6, to be run as specials temporarily, until a new time card can be compiled.

Missouri Pacific Earnings. Missouri Pacific earnings for the first week of November were \$1,368,000; increase, \$249,000.

From July 1, \$19,215,692; increase, \$2,466,955.

Automatic Couplers. L. Rogers, an M. K. & T. brakeman, is laying off.

James Ames, a Katy conductor, is laying off, and J. V. Tapp is filling the place.

The Missouri Pacific railway is operating a tie train on the Warsaw line.

Arthur Frakes, roadmaster for the Katy, went to Holden this afternoon on business.

NEW DISPATCHER HERE

Came in Last Night to Succeed Mr. Douglas, Resigned.

I. H. Douglas, for the past eighteen months third trick train dispatcher for the Missouri Pacific railway in this city, has tendered his resignation to Trainmaster C. M. Hunt, effective at once.

Accompanied by his family, Mr. Douglas will leave the early part of next week for Claremore, Ok., near where he owns some land, and at which town he will engage in business for himself.

K. C. Marshall, of Des Moines, Ia., a former Rock Island train dispatcher, arrived in Sedalia last night to succeed Mr. Douglas, and will assume the duties of third trick dispatcher as soon as he becomes familiar with the situation.

Mr. Douglas is an efficient dispatcher and had many friends here who will regret to learn of his departure, nevertheless wishing him success in his new undertaking.

MR. HOLCROFT GOES UP

Appointed Round House Foreman for Katy at Mokane.

Frank C. Holcroft, a skilled mechanic employed in the M. K. & T. roundhouse in this city for the past five years, has been deservedly promoted to foreman of the M. K. & T. round house at Mokane, Mo., effective today.

Mr. Holcroft left for Mokane this morning, but his family will continue to reside in Sedalia until spring, when they will join him.

Six years ago next April Mr. Holcroft entered the employ of the M. K. & T. at the round house, and during all that time he has retained the reputation of being one of the best mechanics employed on the system.

INK STAIN ON HER KNEE

Figured in the Steinhil Murder Case Today.

Paris, Nov. 12.—Judge Advocate Rolfe resumed the concluding argument for the state in the Steinhil murder trial today. Beginning with the words, "We will live again the tragic night," he undertook to reconstruct the scenes in the Steinhil home on the night of the tragedy.

He dwelt particularly on the ink stain which the physicians found on the knee of Madame Steinhil. He claimed that during the binding of Madame Japy an inkstand was overturned, the contents spattering on the bed and upon Madame Steinhil.

THE WEST INDIA STORM

Great Damage Was Done, but No Loss of Life Reported.

New York, Nov. 12.—The extent of the damage inflicted by the West India storm in Jamaica is indicated today by a message received from the wireless operator on board a ship in Kingston harbor.

The message says a hurricane and unprecedented rainfalls were experienced Wednesday, and railroads were washed out, cables broken and three steamers beached, but were refloated with slight damage. The operator reported no loss of life.

SALOON THOUGHT NO. 236.

The best assets that Sedalia or any community can have is intelligence, sober, industrious citizens. Please name one citizen in Sedalia that is made more intelligent, that is made more sober, that is made more industrious by our 32 saloons. The ONLY assets of a community are its citizens, and to think that ANY COMMUNITY can debauch their citizens on percentage and then claim it is business principle is nothing more than foolish. The average person does not study the saloon issue but merely lets the man who is getting the money do the thinking. No one can intelligently and impartially consider the saloon issue for an hour without arriving at the fact that it is the greatest financial waste that the community must have to put up with.

BIG APPLE DISPLAY

TO BE SEEN AT THE SOUTHERN COMMERCIAL CONGRESS DECEMBER 6-7.

MARTINSBURG, W. VA., TO SEND IT

Lynchburg, Va., Will Have a Display of Shoes—Houston, Texas, Will Show Its Development as a Gulf Port.

Special to the Democrat-Sentinel.

Washington, D. C., Nov. 12.—One of the attractive exhibits at the Southern Commercial congress, December 6 and 7, will come from the board of trade at Martinsburg, W. Va. The display will be entirely devoted to West Virginia apples. According to a recent statement, the value of the apple crop of West Virginia now exceeds the nine-month value of its coal output each year.

Another exhibit of great significance will be a show case of shoes from Lynchburg, Va., together with statistics to prove the quick development of that city from a shoe-jobbing center to a shoe manufacturing center, turning out several million dollars worth a year.

Houston will bring as its exhibits maps and illustrations to show the development of Houston as a port. The exhibit will be kept in the limelight by a strong delegation from the Houston Business league, headed by President Heitman. The members

will take part in the Southern Commercial congress and then in the National Rivers and Harbors congress, thus accomplishing two important purposes by one trip.

These are mere indications of the practical character of the exhibit feature of the Southern Commercial congress. The director of exhibits is Mr. John H. Finney, secretary of the Appalachian National Forest association.

Men of the south who expect to be in Washington for “Congress Week” December 6-11th, would do well to make hotel or boarding house arrangements in advance, as present indications show the arrival of over 5,000 men to the events of that week—the Southern Commercial congress, the National Rivers and Harbors congress, and other smaller events. The information bureau of the Southern Commercial congress will attend to all such matters without charge.

KILLED BY LIGHTNING

Forty-Six Ducks By a Single Bolt Near Chillicothe.

Chillicothe, Mo., Nov. 12.—The greatest freak in the career of lightning in this section of the country this season occurred at the home of Jacob Bruner, a farmer, residing south of this city, during an electrical storm yesterday.

While a terrific rain was falling, a flock of ducks passed over the Bruner farm. Just as they neared the house a flash of lightning struck the flock and killed every duck. When Bruner went into the yard he picked up forty-six ducks.

DOUBLE LYNCHING

WHITE WIFE MURDERER, AND NEGRO WHO KILLED YOUNG WHITE GIRL.

WILD SCENES AT CAIRO, ILLINOIS

Hundreds Riddle Black With Bullets When Attempt to String Him Up Fails—Crowd Now Hunting His Companion.

Cairo, Ill., Nov. 12. — At 11:15 o'clock last night a mob, after battering on the steel cell in the county jail, removed Henry Salzman, a white man, charged with the murder of his wife last August, and, after taking him several blocks from the jail, to Twenty-first and Washington streets, lynched him.

He was strung up to a telephone pole and riddled with bullets at 11:30 o'clock. It is said that he made a confession.

The Negro Was Lynched.

Cairo, Ill., Nov. 12. — Confessing that he attacked and murdered Miss Annie Pelly, the 24-year-old shopgirl, here Monday night, and implicating Arthur Alexander, another negro, Will James was last night shot to death by a mob of 10,000 persons, after a futile attempt had been made to hang him from the steel arch at Eighth and Commercial streets.

The negro's bullet-riddled body was then dragged through the streets by the howling mob to the place where the girl's body was found, and thrown into a huge bonfire which had been built up. Pistol shots and cries of the men mingled with the hissing and sputtering flames as they licked the negro's body. A woman applied a torch to the pile.

After it was seen the body was being destroyed the mob started a search for the negro, Alexander, who was arrested on suspicion in East St. Louis Wednesday and brought to Cairo.

James was taken from Sheriff Davis and Deputy Fuller in the country between Karna and Bellnap last evening by a Cairo mob of several hundred. The two officers made slight resistance, as they were nearly famished, having been hiding in the woods all night and day with their prisoner. The mob fired several shots into the air, bringing to them several hundred more men, who were searching the nearby country.

The mob with the negro and the officers then marched to Bellnap, where a Big Four train was boarded for this city. Fully 5,000 people met the train here and joined the big crowd then in possession of the black. Leaving the train at Tenth street, the mob rushed to Eighth and Commercial streets, which is the principal corner in the city.

While arrangements were being made to string the negro up he was lifted in the air several times to let the crowd see him. A man climbed on top of the arch which spans the street and turned on the electric lights. A rope was thrown up to him and he dropped it over the arch, letting the end fall down to the surging crowd. Then the rope, with many men seizing it, was given a mighty tug, and the negro was hoisted up, only to fall as the rope broke under the strain.

Then hundreds of men with guns, unable to longer restrain their fury, fired shot after shot into the negro's body until satisfied that he was dead. It was then with cries of glee they seized the rope that was around his neck and dragged his body to the spot where the girl's body was found and threw it into a huge bonfire.

It was while preparations were being made to string him up to the arch that James confessed and implicated Alexander. He had stubbornly denied his guilt while being taken to Cairo on the train, but before the big mob and looking at the rope which was about to be put around his neck, he broke down. He told of the assault and declared that Alexander had some of the jewels taken off of the girl's body.

When found by the mob the negro was handcuffed between the two officers, and they were lying on the bank of a creek, and all three were so weak from hunger and exposure that they were not able to make much resistance.

Sheriff Davis says he deplores the lynching, and made every possible resistance in his power, but that the crowd was so large he could absolutely do nothing.

He says that after leaving the

train at Dongola Wednesday night he made an effort to get a rig, but found it impossible to get one, as the news had spread over the country and that the farmers knew the crime the negro had committed, and that he could not get assistance and hardly anything to eat. At every point where he headed to board a train he was blocked by a mob.

Militia Ordered to Cairo.

Springfield, Ill., Nov. 12.—Following the rioting in Springfield last night and the lynching there of a negro named Will James, Sheriff F. E. Davis, of Alexander county, wired to the governor of Illinois in this city for assistance.

Orders were immediately transmitted to have Co. K, Fourth Illinois National Guard, with headquarters in Cairo, to respond to the orders of the sheriff. The state department refused to give an expression on the rioting until further investigation. Col. Richard J. Shand, of the adjutant general's office, was last night sent to Cairo to investigate. Governor Deneen is in Chicago.

Many Attended Girl's Funeral.

Anna, Ill., Nov. 12.—The funeral of Miss Annie Pelly in this city last afternoon at 1:30 o'clock at St. Mary's Catholic church was largely attended, fully 1,000 persons meeting the train bringing the body. The funeral services were conducted by Fr. Joseph Downey, of St. Patrick's Catholic church in Cairo, assisted by Fr. Joseph Fisher, of Cobden. The floral offerings were many and beautiful. Seventy-five relatives and friends of Miss Pelly from Cairo and Mound City accompanied her body here.

The feeling against Will James, the supposed murderer, is most intense in Anna. A crowd numbering fully 250 gathered at the depot in Anna Wednesday night when news was received here that the negro had left Cairo in charge of officers on train No. 8.

It is reported that the officers offered \$25 for a team at Dongola to convey the party to Vienna, but Dongola citizens refused to grant their request, and, with their prisoner, they left Dongola on foot.

KANSAS CITY POLICE HIT

Judge Tells of Rumored Protection of Criminals.

Kansas City, Mo., Nov. 12.—Judge Ralph S. Latschaw exploded a bomb yesterday when he called the grand jury in and gave them additional instructions upon several matters which had been called to his attention. The judge dwelt at some length on the alleged protection of crime and criminals and the suppression of prosecution and information of the same by the Kansas City police department.

He said that it had been currently rumored that the police department of this city was suppressing the facts in regard to certain crimes committed in Kansas City, and that the information in connection with these crimes was not given to the prosecuting attorney.

WAS GONE 22 YEARS

Mourning for Dead, Brother Returns in Nebraska.

Fremont, Neb., Nov. 12.—Mrs. Frank Kent, pale with fright, was sure that she confronted an apparition, when her brother, Will Nordan, reappeared Tuesday, after an absence of twenty-two years. The brother had difficulty in convincing her he was real.

Nordan ran away when he was 15 years old and has traveled in all parts of the world. He was mourned as the victim of a shipwreck years ago. He excused his long oblivion by saying he had a wild travel fever and it kept him too busy to write.

Mrs. Kent, though frightened, knew him as her brother, despite the lapse of years.

BODY IS FOUND IN POND

Authorities Think Danville, Ill., Bachelor Was Murdered.

Danville, Ill., Nov. 12.—The body of Adam Werpeniesoi, with a bullet wound in the forehead, was found in a pond near his home at Grape Creek yesterday. The authorities think he was murdered.

Werpeniesoi had not been seen for two days, but as he lived alone no suspicion was excited. He was known to have carried a large sum of money.

TRY TO BREAK HUGG WILL

Three-Quarters of a Million Dollars Is Involved.

Baltimore, Nov. 12.—Trial of the suit to break the will of the late Miss Margaret V. Hugg is scheduled to be resumed today. Three quarters of a million dollars worth of property is involved in the contest.

Miss Hugg died Sept. 6, 1908, at her home, 1302 Emsaw place, leaving an estate valued at \$750,000. Bequests in her will for charitable purposes and to relatives and others aggregate less than \$700,000, the balance being left to Mr. William S. Thomas, a third cousin, whom she named as residuary trustee and executor without bond.

In the event of the will being broken, it is said, Mr. Thomas will not be entitled to any share of the estate, his relationship to Miss Hugg being too remote.

Miss Hugg was 64 years old at the time of her death. She was a daughter of Jacob W. and Margaret Hugg, and her nearest surviving relatives are cousins.

Hadley Honors Requisition. Jefferson City, Mo., Nov. 12.—Governor Hadley yesterday turned over Charles Ferguson, under arrest at

My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy."

THE OPERA SEASON

METROPOLITAN IS TO OPEN IN NEW YORK CITY TOMORROW NIGHT.

OSCAR HAMMERSTEIN AT THE HEAD

Adeline Genee, the Danish Danseuse, is Astounding the Natives—Other "Hits" on the Stage in the Metropolitan.

Special to the Democrat-Sentinel.

New York, Nov. 12.—On Monday evening next the regular season of the Metropolitan Opera house opens, which is earlier than usual. By advancing the Metropolitan season the directors tacitly admit that Mr. Hammerstein has established the Manhattan Opera house as a formidable rival of the older institution, so that each innovation of the new comer will have to be met by the Metropolitan directors if they would retain their hold upon musical as well as social New York.

Of course, the opening night of the Metropolitan is largely a social affair. "La Gioconda" is the offering for next Monday evening, and a glance at the brilliantly lighted parterre boxes, often called "the golden horse show," will reveal many changes in the list of occupants since last season.

None of the thirty-five boxes, those highly prized points of vantage, has been sold all being retained by their owners, but, as usual, among those who sublet them for certain subscription performances, those prominent in the social and financial world will be found in their accustomed places.

There will be some new comers, while others who have been seen at the Metropolitan for many seasons will be missing this winter, some on account of family mourning, others because of the lure of travel in foreign lands and others because they have preferred to give up their regular places at the opera to be free to attend the performances in the New Theater, without trying, like the Irishman's bird, to be in two places at the same time.

Before dropping the operative situation, it might be mentioned that the bluntness and good humor of Mr. Oscar Hammerstein regarding his first venture in educational opera at moderate prices have made him many new friends and won back others whom he had almost alienated.

Only a big man is willing to admit that he has made mistakes and proclaim his intention to profit by them. Only a philosopher and observer who can see beyond last week would promise to renew an experiment, which, to the unthinking, may have looked like a financial failure.

Mr. Hammerstein did all of these things. He informs us that he has sunk \$50,000 in "educating" a new public into a love of opera. And he protests most emphatically that next summer he will again give popular opera for some months here. His promises are registered in heaven and in our grateful hearts. His losses—But what does a paltry \$50,000 mean to a philosopher?

Meanwhile the theatrical season is not lacking for novelty. Nothing more delightful has yet appeared in New York than the "Silver Star," with Adeline Genee, the Danish danseuse, in the title role.

There have been dancers and dancers, and then dancers, but there has been only one Genee. The triumph she has scored this wonderful little dancer may roll up and take home with her, for it belongs almost exclusively and entirely to herself, for outside of the beautiful stage settings, which the management provided her, she received very little assistance from the "Silver Star."

Nightly crowds pack the New Amsterdam to see Genee. Her dances are still of the thirteenth sort that first endeared her to her audiences, but they are more varied, personal and less in the manner of the old French ballet.

The five diversifications in which Genee appears are varied. The first, the fairy dance, is the twinkling, the elfish measure of two years ago. The second is the "march militaire." The hornpipe in a gay little sailor's costume is the third. She ends the first dance by dancing up an incline backwards on her toes, a feat of pure skill unparalleled on any stage in any country.

The dance of the "Spirit of Champagne" in the second act is even more interpretive. In the third act Mlle. Genee as "Spring" reaches the zenith of her power. The play by Harry B. Smith, with music by Jerome and Schwartz, Robert Hood Bowers and William A. Helon, is in three acts with four scenes. In the cast are Bickel and Watson, Barney Bernard, Lee Harrison, Mortimer

Weldon, Nellie McCoy, Emma Janvier, Grace Ormonde and Clara Dayton.

"Mr. Lode of Kool" is the title of the musical fantasy in which Bert A. Williams, of Williams & Walker, has made his appearance as a star at the Majestic theater.

The only scene of the piece is laid in the courtyard of the king, Pig Smoke, ruler of the mythical island of Kool, and the plot is a full of complications as is usually the case in the comic opera kingdom.

Shipp and Rogers are responsible for the book and lyrics, and Rosamond Johnson furnished the score, which includes several numbers, all worthy successors to his "Conzo Love Song" and "Under the Bamboo Tree." There are also several additional numbers that have been furnished by Mr. Williams.

"Idols," a dramatic version of William J. Locke's novel, entered last Monday its second week at the Bijou theater. The play was made by Roy Hornimann, and was first produced in London more than a year ago, where it had a long run at the Garrick theater.

The company which produces it here includes Mabel Roebuck, Leonore Harris, Blanche Weaver, Orlando Daly, H. J. Carvill, Sheldon Lewis, Alexander Frank, S. F. Klawans, Harold Mead, Helen Orr Daly, Ingegene Coleman and Joseph K. Whitmore.

The scene of the play is laid in London and the story tells of the experience of Hugh Coleman, who is in danger of the gallows because of the selfishness of a woman he has secretly married, but is saved by the sacrifices of the wife of his closest friend. A trial scene furnishes the climax of the play.

Margaret Anglin has in "The Awakening of Helena Richie" at the Savoy theater a production which has drawn capacity audiences every night since the opening. The hold which this play has on the public is due to its sympathetic quality, its bright scenes, pathetic movements and the excellent acting of Miss Anglin.

Raymond Hitchcock, in "The Man Who Owns Broadway," is adding new droppings to his performances at the New York theater. The musical play

CURED ITCHING PAINFUL HUMOR

Which had Spread Over Face, Body and Arms—Swellings were as Large as a Dollar—When they Broke, Sores would Not Heal—Suffered 3 Years.

MADE SOUND AND WELL BY 3 SETS OF CUTICURA

"My trouble began about three years ago with little black swellings scattered over my face and neck. They would disappear but they would leave little black scars that would itch at times so I couldn't keep from scratching them. Large swellings would appear in the same place and they were so painful I could hardly bear it and my clothes would stick to the sores. The first doctor I went to said the disease was scrofula, but the trouble only got worse and spread. By this time it was all over my arms and the upper part of my body in big swellings as large as a dollar. It was so painful that I could not bear it on my back at night. The second doctor pronounced my disease inflammation of the lymphatic glands. He stopped the swellings, but when they would break the places would not heal. He tried everything that he could but to no effect. He said I might be cured but it would take a long time. I bought a set of the Cuticura Remedies and used them according to directions and in less than a week some of the places were nearly well. I continued with the Cuticura Remedies until I had used three sets, and now I am sound and well. Before Christmas something broke out on my seven year old brother's hands in the form of large sores. I tried everything I could think of but to no effect until I happened to think of Cuticura and one application cured him. Also, not long ago, my sister got a bad burn on her ankle. I have been using Cuticura on that and it gave her scarcely any trouble. O. L. Wilson, Puryear, Tenn., Feb. 8, 1908."

Plants never freeze in a home heated by COLE'S HOT BLAST

You know where plants never freeze it doesn't get cold. Cole's Hot Blast maintains a continuous fire; it will hold fire over night with a hat full of coal. With this stove you need only open a draft in the morning and the rooms are quickly heated with fuel put in the evening before. No other stove does this.

Cole's Hot Blast stove saves half the soft coal or slack or lignite, because it burns the gas as it arises from coal, and as gas is half the fuel in coal, Cole's Hot Blast makes soft coal, slack or lignite go twice as far as any ordinary stove.

The unequalled fuel saving, the heat radiation, the even temperature, the holding of fire, are all the result of the patented features in the construction of this remarkable stove which cannot be used in making any other stove; and to the Patented Hot Blast draft which burns the wasting gases in the fuel. Soft coal, as you know, is half gas. The makeup of the stove is interesting. Read:

In an ordinary stove the gas (half the heat value) arises from the coal as the coal burns and the gas goes right on up the chimney. In Cole's Hot Blast the hot blast draft on top of the fire burns the coal from the top—burns the gas. Makes the coal last twice as long.

Note this—you cannot shut off or control ordinary stoves promptly because, though you do shut the air out of the main draft, air is coming in through dozens of small cracks, giving the fire a draft which is in no way controlled. You notice this when a stove keeps on heating long after you have shut it off.

The patented construction of the Original Hot Blast stove enables the manufacturer to guarantee it to remain always a-draft.

Remember, that is part of the guarantee. You have perfect control over the fire at all times. Thus the coal doesn't waste away—and will hold fire so well that you don't have to kindle a fire in the morning as with other stoves, but actually dress and eat breakfast in warm rooms, warmed by the fuel put in the night before.

Lots of satisfaction, isn't it? Don't expose the children to cold. No need of losing your plants! Don't kindle fires daily. Call and let us show you.

is purely and simply an entertainment, and the manner in which the author jests with the principles of technique and interpolates gags upon the unities of time, place and action, is enough to make Aristotle, Boileau and Lessing groan in their graves.

The Tippetone continues to attract big audiences to the three spectacles, "A Trip to Japan," "The Ballet of Jewels" and "Inside the Earth." Among the scenic novelties may be mentioned the departure of an ocean liner from the dock; the mikado's garden in Tokio, with the fete of chrysanthemums in progress; the United States battleship fleet on the move; the palace in the center of the north; the waterfall of living women, and the finale, when an army of silver clad soldiers, men and women, march into the water, disappearing from view.

And now the church and the stage are to be brought closer together—under the same roof, in fact. Forbes Robertson, with his "Passing of the Third Floor Back," and Walker Whitesides and his "Melting Pot" may be preached about in the pulpit, but William Morris is going to have sermons preached from the stage of the American Music hall.

The Board of Home Missions of the Presbyterian church is every afternoon after the performance, holding religious services, in which the audience is invited to participate. The performers are also requested to remain. Too bad they are nearly all Hardshell Baptists.

SLEPT IN THE CABOOSE

Freight Crews Did When the Sixteen Hours Were Up.

St. Louis, Nov. 12.—Implicitly obeying the laws of the state of Illinois, two very much refreshed freight crews left today for further runs on the Wabash, after having been trundled into St. Louis peacefully sleeping in the cabooses of their trains. The two crews were bringing trains to St. Louis when the sixteen-hour continuous service limit fixed by the Illinois law expired.

The crews stopped the trains near East Alton, clambered into the caboose and went to sleep, waiting for a train hastily sent out to push them to their destination.

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his office of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

NINE HURT IN A WRECK

Son of Dustin Woman May Die—Accident Due to Spreading Rails.

Muskogee, Ok., Nov. 12.—In a wreck on the Missouri, Oklahoma & Gulf railroad five miles south of Henrietta at 4:30 p. m. yesterday Mrs. Vandiveer and her 4-year-old son, of Dustin, Ok., were badly hurt and seven other passengers received slight injuries.

The woman and child were brought to the Muskogee hospital on a special train. The boy's forehead was cut open and he will probably die. Mrs. Vandiveer's left ear was almost severed and she was badly bruised about the body. The train was the north-bound passenger, and the wreck was due to spreading rails, which caused the two rear coaches to leave the track.

INFANT MORTALITY

AMERICAN CONFERENCE ON A TIMELY TOPIC ATTRACTS MUCH ATTENTION.

SHOULD KEEP RECORD OF BIRTHS

Great Britain, Since 1838, Has Had a Law That Has Resulted in the Saving of a Great Many Infants.

London, England, November 12.—The American conference, on infant mortality, which is scheduled for today, has attracted much interest among English sociologists and physicians. Investigators who have visited the United States assert America is far behind Great Britain in this movement.

As an instance, it is pointed out that in few parts of the United States is there kept an accurate record of the births, as such registration is not considered necessary by the American health officers. Great Britain has had such a law since 1838, and this alone, it is admitted, has been highly useful in saving babies. Congestion of population, admittedly the cause of much infant mortality, is, however, necessarily greater in this "tight little island" than in America.

Six years ago Bruns investigated 2,701 infant deaths in Berlin. Of that number 1,792 occurred in families occupying one room tenements, 754 in those living in two rooms, 122 in those occupying three rooms, and only forty-three in families living in larger establishments.

As a means of decreasing the overwhelming mortality in congested industrial centers, the "Garden City," like that at Bourneville, near Birmingham, England, is being established in some parts of Great Britain.

The removal of the manufacturing plant which employs large numbers of individuals to some suburban district, and the erection of cottages with gardens attached, for the workers and the families; the establishment of schools and other features of city life; the development of the property along community lines, with the agreement that all interests shall be devoted to public improvements, are features of this plan.

Obvious difficulties make the application of the plan on a general scale impracticable, and the improved tenement offers a more feasible solution of the problem for the majority of cities. The registration of slum property is advocated by some English investigators as a means of weeding out the unsanitary and undesirable tenement houses.

Owners of slum property are not particularly sensitive, as a rule, to their responsibility as their brother's keeper. But nobody can tell what the future has in store. It is not as reputable to amass a "swollen" fortune by the manipulation of vested interests as it was a few years ago.

This year the birthdays of King Edward and King Victor Emmanuel, of Italy, come in the same week. Edward's birthday was celebrated on Tuesday, while that of the Italian monarch was yesterday. Victor Emmanuel was born November 11, 1869, so that he is now 40 years of age.

St. Martin's day was observed in England in the customary manner yesterday, and the official weather forecasters had to take a back seat. The least superstitious of Englishmen still entertain a sinking belief in the ancient "poem":

If November 11 is cold and clear,
Then the winter will be severe;
But if the day be stormy, child,
The next four months will all be mild.

So runs the old saw, in which is embodied the popular superstition of St. Martin's influence over the weather. Elected to the See of Tours in 374, St. Martin converted his whole diocese from paganism to Christianity. He died Nov. 11, 397, and, in accordance with the old church custom, his day is celebrated by ritualistic churches the world over on the anniversary of his death.

If Clocks Could Talk

What a lot of queer stories would be given to the world! What a tale the mantle clock in the parlor could tell—of courting and quarreling and kissing and making up. What a lot of good dinners the dining room clock has seen eaten, with never a mouthful for itself! And the dainty French clock in my lady's boudoir—how many secrets it must know! To be sure, all well behaved clocks hold their hands before their faces, but they must see everything just the same.

We have a collection of handsome and well behaved clocks—clocks that always tell the truth about time and that tell nothing else. We have clocks from \$1.00 and up. And don't forget to consult our expert optician, if you need glasses.

TO SEE FIREWORKS

ALL OVER THE COUNTRY IT IS SAID STARS WILL BE FALLING TONIGHT.

CONTINUES THE NEXT TWO NIGHTS

Take Place Once In Every Ten Years—Something in Regard to Meteoric Displays That Have Taken Place In Past.

Washington, Nov. 12.—Prepare for the fireworks. All over the country the stars will begin falling tonight, and the display will continue on tomorrow and Sunday nights. Astronomers state that the coming meteoric display will hardly be up to standard. As a matter of fact, the earth cuts their orbit at perhaps its most sparsely studded spot. This shower has a period roughly corresponding to the generations of human life, roughly computed as three to the century. The last great display was due in 1899, but it was a disappointment when compared with former manifestations of this periodic maximum.

This year the earth crosses the orbit of this belt of minuscule members of the solar system at a point ten years away from the maximum density, about a third of the circuit of that orbit. The prospects, therefore, are that the display will not approach anything like the brilliance that from time to time has been observed.

On the other hand the exhibition, chiefly in the morning hours of Sunday, should far exceed the count of the wandering stars, which blaze for a moment almost every night, silent flights of cold incandescence.

The penultimate display was a great show in the skies. It was spread over three years, the peak of its magnificence in 1866, a heavy fall in 1867 and what might be called a smart shower even in 1868.

But the 1833 rain of the heavens was most astounding. The eastern seaboard was most advantageously situated for observation on the night of November 12-13. The stars fell as fast and thick as flakes of snow on a winter day. Prof. Olmsted reckoned that 240,000 gleaming trains were visible in the course of nine hours. To the ignorant it presaged the crack of doom, the beginning of the rolling up of the heavens like a scroll.

The pea size estimate is generally accepted as the measure of the components of the periodic shower meteors. Only slightly larger is the estimate made by Dr. Johnstone Stoney in his address to the British association upon the Leonids of 1866.

"The meteors themselves," he said, "are probably little pebbles, the larger about an ounce, or perhaps two ounces, in weight and spaced in the densest part of that swarm at intervals of one or two miles asunder every day. The thickness of the stream is about 100,000 miles, which, however, is a mere nothing compared with its enormous length. The width is such that the earth when it passes obliquely through the stream is exposed to the downpour of meteors for about five hours."

At intervals along its orbit each comet runs the risk of several collisions, both on its outward voyage into space and upon its return, to be a spectacle in our heavens. It is merely a matter of the mathematics of orbital revolution of two bodies obeying in different order the same central impulse.

To the slow and inevitable change is added the suddenness of collision, a brief accomplishment of what would otherwise be more slowly done. Leverrier found the solar history of the Leonid rain to begin in the capture of a comet accomplished by the enormous influence of remote Uranus in the year 126 of our era. At that or at some later period the parent comet was in collision with some one of the greater planets.

Its substance was rent to pieces and the meteor gem was set upon its orbit. In 1833 and in 1866 the earth tore through the nucleus of the fragments. Some few it burned and destroyed by the friction engendered in its atmosphere; only a few, for the estimate of 240,000 is less than the counting of the veriest pinch of sand.

Belton Man's Neck Broken.

Belton, Mo., Nov. 12.—A jump from the motor car of W. A. Roberts yesterday cost the life of W. A. Powell. Mr. Powell asked Mr. Roberts to stop the machine, but Mr. Roberts did not hear him. Powell jumped, and in doing so fell. He broke his neck.

NO MORE GRAY HAIRS

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers and it can be bought for 50 cents and \$1 a bottle at almost any first-class drug store, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by W. E. Bard Drug Company.

"Liquor" at Oyster

Prices

Oysters shipped in open tubs have to be re-iced many times in transit. The ice is put in the tub WITH THE OYSTERS. As fast as one piece melts another is put in.

This melted ice washes the fine sea flavor out of the oyster—bloats it—bleaches it—makes it taste flat and insipid.

The melted ice is the "liquor" which is sold to you at OYSTER PRICES.

Sealshipt Oysters

The Full Flavor of the Oyster and Nothing Else.

Sealshipt Oysters are sold by us exclusively, because they are HONEST oysters. Air-tight containers are packed solid with oysters AT THE SEASIDE AND SEALED. Ice is kept packed around these containers during the entire journey, but no ice or water ever touches the oysters. There is no railroad ice "liquor"—nothing but solid oysters.

CONVICT TO PAY \$10,000

Widow of Traveling Man Wins Civil Suit Against His Slayer.

Columbus, Miss., Nov. 12.—The suit of Mrs. Kate Laurent et al vs. Charles R. Smith for \$50,000, was compromised for \$10,000 cash, the money being paid at once.

With this compromise, the Smith case has passed into history. Charles R. Smith, defendant in this civil suit, was convicted of killing Eugene A. Laurent, a St. Louis traveling man, and is now serving a life term in the penitentiary. Smith claimed that his 18-year-old daughter had been wronged by Laurent.

LIQUOR WAS STOLEN

Compromise of "Blind Tiger" Cases Not Necessary.

Terre Haute, Ind., Nov. 12.—While authorities at Paris, Ill., and social club people were busily engaged in compromising "blind tiger" cases, one stipulation being that the liquor, obtained in a raid and locked in the court house, should be shipped out of the county, the liquor was stolen.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by all dealers.

HERO'S FOUR REWARDS

Man Who Saved Child Gets Wife, Two Medals and \$1,000.

Fremont, Neb., Nov. 12.—Frank Larson, a railway fireman, who rescued Earl Delany, a 2-year-old boy, from death under the wheels of a locomotive at Exeter, has been rewarded four times for his bravery.

The lad's mother, a pretty widow, rewarded the brave fireman by giving him her hand in marriage. The railroad officials and the Carnegie Hero commission each voted Larson a medal and today he received an additional \$1,000 from the Carnegie fund.

Larson risked his life to save the boy, who wandered on the track in front of the engine. Seeing the child's peril, Larson stepped on the running board and reached the pilot of the engine just in time to snatch the boy from death.

DON'T SUFFER WITH PIMPLES

USE ZEMO

The most disfiguring and unsightly of skin diseases is acne, popularly known as "pimples." The pimples may range in size from that of a pinhead to that of a pea. They sometimes continue for a long time and sometimes suppurate or "matter" slowly.

If you are suffering from pimples, ZEMO will work an honest cure. Pimples should not be squeezed or picked. Bathe the face in warm water with very little soap; dry with rough towel, rubbing until a glow is produced. ZEMO should then be applied with absorbent cotton or soft cloth. We are Sedalia agents for ZEMO.
